The first time you go there:

1. Click on ***Get a UH Username**
2. Fill in the required information. **You will need your UH ID or your Social Security number!**
3. Choose a UH Username. Remember, you will keep this username for the rest of your college career in the UH system, so choose wisely and refrain from using inappropriate usernames—your instructors will see it!
4. Choose and answer two Secret Questions that will be used in case you ever forget your password. Remember that these answers are case-sensitive.
5. Create a password. This can be tricky!

Remember:

- Your password must be 8-32 characters long
- You must use at least
 - one upper case alphabetic character,
 - one lower case alphabetic character,
 - one numeric character, AND
 - one special character
- Do not use dictionary words, birth dates, names, or anything relating to your Secret Questions and answers.

Password Tip:

If you really must use a name or dictionary word, substitute letters with symbols or numbers:

1 or ! for the letter i	@ for the letter a	3 for the letter e	0 for the letter o
-------------------------	--------------------	--------------------	--------------------

- For example, waianae808 could become “W@1@n@e808” and would probably be accepted.
